## thermometer with folding probe

Ideal for spot checks, the Hanna folding thermometer is a great favourite across the food industry.

The meter is automatically activated by opening the folding probe.

Angled degrees of opening allows probe to be inserted into foods from different directions.

Probe folds back into the case for safe storage.

### Ordering Information

Pocket thermometer with folding probe | HI-151-02

supplied with battery and instructions

### Specifications

Product Code	HI-151-02
Range	-50.0 to +150.0°C
Resolution	0.1°C
Accuracy	±0.5°C±1 digit (-50.0 to 100.0°C); ±1.0°C±1 digit (outside)
Typical EMC Deviation	±0.3°C
Probe	stainless steel, with penetration tip, 117 x dia 3.5 mm
Battery Type	1.5V AA
Battery Life	25000 hours of use; auto-off after 8 minutes of non-use
Environment	0 to 50°C; RH max 95%
Dimensions / Weight	165 x 50 x 20 mm / 100 g

### The HI-151 complies in full with requirements of food legislation on accuracy:

- Thermistor based for high accuracy
- Wider than standard temperature range: -50°C to +150°C
- No need for separate calibration
- Easy clean design
